

A detailed botanical illustration in a sketchy, hand-drawn style. It features several thin, dark green stems rising from the bottom. The stems are adorned with various types of leaves: some are long and narrow, others are more rounded or lobed. At the top of one stem on the left is a cluster of small, dark, round fruits or berries. In the center, there's a larger, more complex structure resembling a flower or a seed head with yellowish-green elements. The background is a solid, light cream color.

Elets State University named  
after. I.A. Bunin
