## ВВЕДЕНИЕ

Цель данного учебно-методического пособия по английскому языку заключается в совершенствовании коммуникативных навыков.

Данное пособие предназначено для студентов второго курса по направлению подготовки «45.03.02. Лингвистика» и «44.03.05 Педагогическое образование (профиль Иностранный язык)» и является дополнением к практическим занятиям по дисциплине « Практический курс английского языка». В рамках данной дисциплины согласно учебному плану данное пособие рассчитано на один семестр. Данные вопросы так же могут быть использованы для подготовки к различным экзаменам по темам: «illnesses and their treatment», «sport».

Учебное пособие состоит из двух глав. В первой главе представлены вопросы по теме «illnesses and their treatment». Данный учебный материал может быть использован для организации практикумов по английскому языку медицинской направленности. Во второй главе представлены вопросы по теме «sport». Данный учебный материал также может быть использован для организации практикумов по английскому языку для обучающихся физкультурного профиля. На каждой странице находятся по 3 профессионально-ориентированных группы вопросов.

Обучающиеся могут обсуждать эти темы с друзьями, одногруппниками, преподавателем английского языка, чтобы совершенствовать разговорные навыки, пополнять словарный запас.

You should say:

- what normal pulse rate is
- why people have irregular pulse
- what you should do if you have rapid pulse

And also say what device helps us monitor our pulse.

### **How often do you drink antibiotics?**

You should say:

- who prescribes antibiotics
- about negative effects of antibiotics
- about contraindications of antibiotics

And also say if you have ever had side effects when taking antibiotics.

### **What is cancer?**

You should say:

- if cancer is curable nowadays
- what doctor you should visit to diagnose cancer
- about reason of cancer

And also say about prevention of cancer.

## **Illnesses and their treatment (29)**

### **What are the symptoms of diabetes?**

You should say:

- what you know about diabetes
- if you know the statistics of diabetes in your country
- how to lower the risk of diabetes

And also say what you do to lower the risk of diabetes.

### **What do you know about ulcer?**

You should say:

- what nutrition you should have to avoid ulcer
- what you know about Helicobacter Pylori
- why people have ulcer

And also say about symptoms of ulcer.

### **Why do people have their cholesterol tested?**

You should say:

- if you have ever had your cholesterol tested
- what the norm of cholesterol is
- why it is dangerous to have high level of cholesterol

And also say if you have ever had your cholesterol tested.

## **Illnesses and their treatment (30)**

### **Do you drink enough water?**

You should say:

- why it is important to drink enough water
- how much water you should drink a day
- if you drink enough water

And also say what happens if you do not drink enough water.

### **What is thyroid gland?**

You should say:

- where we have thyroid gland
- about functions of thyroid gland
- why it is important to have your thyroid gland tested

And also say if you have ever had you thyroid gland tested.

### **What do you know about a hormone of happiness?**

You should say:

- what we call a hormone of happiness
- how you can increase the level of serotonin
- how happy you are

And also say what makes you happy.

## **Illnesses and their treatment (31)**

### **What do you know about polio?**

You should say:

- if there is a polio vaccine
- what polio is
- when people make a polio vaccine

And also say if you have a polio vaccine.

### **Can you render first aid?**

You should say:

- what first aid is
- if you learned how to render first aid
- why it is important to know how to render first aid

And also say how you can learn to render first aid.

### **What do you know about COVID 19?**

You should say:

- if you know the statistics of people infected with COVID 19
- if there is any vaccine against COVID 19
- if there are cases of COVID 19 in your country

And also say about prevention of COVID 19.

## **Illnesses and their treatment (32)**

### **What do you know about TB?**

You should say:

- if you know the statistics of people infected with TB
- if there is any vaccine against TB
- if there are cases of TB in your country

And also say about prevention of TB.

### **Have you ever had appendicitis?**

You should say:

- how people feel in case of appendicitis
- if it is a dangerous condition
- if you know someone who had appendicitis

And also say about symptoms of appendicitis.

### **Have you ever had your chest X-rayed?**

You should say:

- why people have their chest X-rayed
- what diseases it may help diagnose
- if it is bad for health

And also say about the last time you had your chest X-rayed .

## **Illnesses and their treatment (33)**

### **Have you ever had running nose?**

You should say:

- why people have running nose
- what infection it may be
- about prevention of running nose

And also say if it is infectious.

### **Have you ever had an ultrasound?**

You should say:

- why people have an ultrasound
- what diseases can be diagnosed with ultrasound
- where ultrasound may be applied

And also say if it is bad for health.

### **How does light influence your eyesight?**

You should say:

- if you have enough light in your flat
- how you can measure light
- where a table lamp should be located

And also say what happens if you do not have enough light.

## **Illnesses and their treatment (34)**

### **What is a coma?**

You should say:

- what the reason of a coma may be
- how long a coma may last
- about consequences of a coma

And also say if you know someone who has been in a coma.

### **Have you ever fainted?**

You should say:

- what you should do if a person faints
- what you should not do if a person faints
- how dangerous it is

And also say why people may faint.
